

# WP1 Synovial Fluid Obtainment; Inclusion & Exclusion Criteria

## Technical Flowchart

### WP1.1. Synovial Fluid Obtainment from Patients Knees

#### WP1.1.1. Inclusion Criteria

Participants will be selected from patients with **early, moderate, and late knee OA** who have failed to respond to medical and physical medicine and rehabilitation approaches due to primary OA and are referred for **intra-articular hyaluronan injection therapy**.

#### WP1.1.2. Exclusion Criteria

Patients who have received **knee injections within the last three months** will be excluded from the study. Participants who **use dietary supplements such as glycosaminoglycans or chondroitin sulphate**, which may affect joint metabolism, will also be excluded from the study.
